This is a function of client base size and average transaction dollar amount. Virtually all clients realize savings in processing fees. Savings ranged from $50/month to well over $5000/month for larger clients.

WHAT WOULD YOU SAY TO A SEDONAOFFICE CLIENT NOT USING INTEGRATED FORTE SOLUTION?

"Considering the time value of money it would be a foolish business decision to not to push auto pay. The integrated processing with SedonaOffice makes Forte an easy choice for a processor."

"Absolutely you should do it. After a few clicks you can post hundreds of payments at one time. I wish all of our customers would do auto pay."

"Take advantage of every savings possible. Not only does Forte integrate with SedonaOffice, but they have lower pricing than going through banks."

"Both SedonaOffice and Forte are customer focused. Having them in partnership provides a seamless, necessary business function."

"Not doing automation payment processing would be a very bad business decision. Using AutoPay saves significant man hours and also reduces collections."

"Anyone that uses SedonaOffice and does not use this feature is missing out on an integral part of the program"
